

My name is Hugues GROSSMANN and I am a Process Manager for KADANT LAMORT in France.

KADANT is a leading equipment supplier for the paper industry. We are located in France and we are part of a US group.

We have some position opened in our application department for young engineers. See below :

https://www.cadremploi.fr/emploi/detail_offre?offreId=156419367222785158&provenance=recherche

We would be open to receive some candidates from your university (paper science) provided they can relocate in France.

Ideally we are looking for candidates having 3 years experience, but graduated student with some relevant internship experience could be OK.

English is our working language so it is a must. The candidate should have good command of French for dayly life in France.

Could you share this offer with your graduate students as well as with your alumnis ?

Best Regards

Hugues Grossmann
