Subject: Requirement of a fresh engineer

Dear Sirs,

I am the Director General of UCO Tesatura SRL, a denim fabric manufacturing company, situated in Giurgiu, Romania. UCO Tesatura SRL is a joint venture company between UCO N.V of Belgium and Raymond Limited of India. We are producing 4 Mln meter per year for the major brands of Europe and USA.

We are searching a chemical engineer to recruit in our Dyeing department. Three of your ex-students are working with us and we are satisfied with their performance.

I would like to request you, if you can suggest few candidates and we can take interview and select one from them.

Thank you for your kind support.

Best Regards,

Jayanta Sanyal
